

Liquid Handling Pumps & Mixers

AquFlow (formerly Hydroflo): Solenoid & Motor Driven API 675 Metering Pumps and Pump

Dean Pumps: Centrifugal Process Pumps; API, ANSI, Mag Drive and High Temperature

Grindex Submersible Dewatering and Slurry

Leistritz: Rotary Screw Pumps; 2,3 & 5 Rotor Designs; API & Non-API Configurations

Liberty Process: Progressive Cavity Pumps, Moyno & Tarby Replacement Pumps & Parts

Teikoku/Chempump: Sealless Centrifugal Canned Motor Pumps

TRUFLO: Centrifugal Process Pumps; ANSI, Mag Drive and Non-Mag Drive

Dynamix: Tank & Static Mixers

Process Gas & Air Compressors

F.L.Smith: (Fuller) Sliding Vane Air & Gas Compressors for Pneumatic Transport

LeROI: Gas Rotary Screw Multi-Stage Compressors

Gardner Denver Nash: Liquid Ring Compressors

Bulk Solids Handling Equipment

AMVT LLC: Optical Color Sorters, Inspection Machines-Xray, Metal Detection, Checkweighers. Belt Conveyors, Bucket Elevators, Inclined belt loader. Packaging Equipment.

Westrup: Seed & Grain Conditioning, Process Mills & Gravity Decks

Oliver: Gravity Decks for Density Separation, Destoners, Fluidized Bed Dryers, Seed Conditioning.

FormPak: Material Handling Systems, Bulk Bag fillers, Unloaders, Dump Stations, Flexible Screw Conveyors.

Pneu-Con: Central Powdered Vacuum & Pressure Conveying Systems, Powder Receivers

American Vacuum Co.: Portable & Multi-Operator Central System for Industrial Vacuum Cleaning

F.L.Smith: FK Pumps for Pneumatic Conveying, Air slides, Rotary Feeders & Diverter Valves

Midwest International: Bulk Loading Spouts, Spout Positioners, Filter Modules, Bin Vents / Dust Collectors & AIRFLO Components

Blowers, Fans & Vacuum Pumps

Gardner Denver: Single & Multistage Centrifugal Blowers

CycloBlower/DuroFlow/Sutorbillt - Gardner Denver: Positive Displacement Rotary Blowers & Vacuum Pumps

Gardner Denver: Liquid Ring & Dry Vacuum pumps

Gardner Denver: High Vacuum Pump, Duo-seal Vacuum Pump, Single Stage Rotary Vane

Republic Air Knife Drying Systems, Regen Blowers, Rotary Vane Vacuum Pumps, Hi-Speed Centrifugal Blowers

Dresser Roots: Positive Displacement Rotary Blowers

Tuthill MD Pneumatics: Positive Displacement Rotary Vacuum Pumps & Rotary Blowers
Tuthill Kinney: Liquid Ring, Dry Screw & Rotary

Howden Industrial: Heavy Duty Industrial Air & Gas Fans, Engineered Axial & Centrifugal Industrial Fans, Centrifugal

Quincy: Air Compressors, Nitrogen Generators and Air Dryers

Filtration & Noise Control

Dollinger: Filtration Products for Air, Gas, and Liquids

Donaldson/Torit: Dust Controls, Bag Houses, Bin Vents, Filters & Rotary Air Locks

Pure Air: Absorbent Media & Filtration Systems

United McGill: Noise Control Products & Systems; Sound Enclosures, Curtains, Silencers, Filters and Filter Silencers

Universal Silencer: Rotary Blower, Engine, Fan, Gas Turbine and Absorptive Silencers, Filter and Filter

Packaged Systems

Engineered: 3-D Modeling, Base Plates, Pre-Piped, Pre-wired, Testing, ASME Welding, Control Systems, Class "A" Engineering License & Complete Turn Key

Service/Repair/Maintenance

Repair Center

Repair, Rebuild and Modification of Rotating Equipment; Vacuum Pumps, Centrifugal, both Vertical & Horizontal Pumps, Blowers, Gear Boxes, etc.

Field Service

Factory Trained Technicians, Fully Equipped Service Vehicles available 24/7

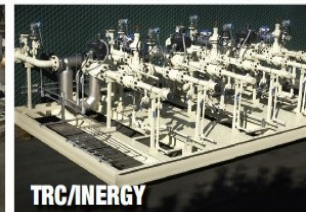

Packaged System Applications

Specific System Packages

- Vapor Recovery Units
- LACT Units (Custody Transfer)
- Automatic Well Testers (AWT's)
- Natural Gas Compressor Packages
- Instrumentation Air System Packages
- Nitrogen Generator Packages
- Railcar Loading and Unloading
- Process Gas Compressor Packages
- Pneumatic Conveying Systems

General System Packages

- | | | |
|----------------|--------------|---------------|
| • Metering | • Gas Boost | • Separation |
| • Vacuum | • Blanketing | • Cooling |
| • Injection | • Pigging | • Transfer |
| • Extraction | • Mixing | • Remediation |
| • Evaporation | • Degassing | • Loading |
| • Filtration | • Conveying | • Compression |
| • Conditioning | • Hold Down | • Aeration |

Our Capabilities: ISO 9001 Certified, & Class A Engineering Contractor

DESIGN & INTERGRATION

Integrate New & Existing Equipment
Equipment Selection & Specification
Equipment & Piping Layout Design
Functional & Performance Testing
Instrumentation & Controls
Sound Attenuation

ENGINEERING

Solid Works 3D Modeling
P&ID Drawings
Project Management
Process Evaluation & Recommendations
Feasibility Studies
Equipment Application
System Startups
Controls/System Integration

FABRICATIONS

Pressure Piping-ASME B31.X
Pressure Vessels – ASME Coded
Structural Welding-AWS D1.1
TIG, MIG, & Flux-Cored
Hydrostatic Testing to 3000 PSIG
Mag Particle, Dye Pen & Radiography
